SKILLS SUMMARY

More than 24 years of experience in Network Design & Administration, Systems Analysis and Technological Consultation. Excellent business acumen, strong typist, exceptional organizational / administrative skills and methods, proficient with all software packages, able to integrate between platforms, experienced in all aspects of graphic design. Outgoing, articulate, personable and pleasant demeanor with outstanding communication skills and inter-personal / public relation skills. This is coupled with the ability to impart understanding to non-technical personnel regarding all aspects of computers & technology, including networking and telecommunications. Additionally, I enjoy working under pressure and completing projects pre-deadline. I pay great attention to detail and have a love of perfection. I also possess the ability to manage people and projects in a way that inspires & satisfies all involved. I am able to be part of a team, as well as in charge of the team. My negotiating skills are par excellence – I drive the most cost effective of bargains and interact productively with vendors & sellers. My attendance and work ethic are outstanding as is my desire to please others.
